PREPARATIONS FOR YOUR TRIP

Passports & Visas
A valid passport is required for all AMAWATERWAYS related travel; your passport must be valid for at least six months after your return. It is your responsibility to ensure that your passport is valid and to secure all required visas. Consult with the appropriate consulates to determine if any visas are needed. Vacations can be disrupted or altered, if the correct documents cannot be supplied at airports or border crossings; please check your itinerary carefully. In the event that you lose your passport while traveling, we recommend that you photocopy the first pages of your passport, airline tickets, driver's license and/or birth certificate to simplify and expedite the process of replacing lost documents. Keep the originals separate from the copies. This will make replacement easier if you lose them en route. It is also useful to carry spare passport photos. You may wish to scan your passport, airline tickets and credit card numbers and email them to yourself as attachments so that you may download copies to assist in obtaining replacements. Please remember to fill out the “Emergency next of kin” section in your passport (in pencil).

Please note all U.S. and Canadian citizens require a Turkish Tourist visa for entry into Istanbul. Passengers of other nationalities should consult their nearest Turkish Consulate.

Dürnstein, Austria
For those passengers beginning in Istanbul, visas can be purchased at Customs prior to exiting the airport. For those passengers ending in Istanbul, visas can be purchased once on board the ship through your Cruise Manager. Passengers can also obtain a Turkish visa prior to their North American departure date.

TSA Secure Flight Program
As of November 1, 2010, the Transportation Security Administration (TSA) now requires all passengers to provide complete Secure Flight passenger data when booking airline travel. This includes your full name, date of birth, and gender as it appears on the non-expired government issued photo ID you plan to use for travel. Any missing/incorrect information can cause unnecessary delays at the airport. If you have booked air with AMAWATERWAYS and have not yet provided us with this information, please contact our office.

Travel Protection
If you have not yet taken out travel protection insurance, please see your Travel Agent, independent insurance broker or contact AMAWATERWAYS before your trip. Foreign hospitalization and treatment often require payment in cash prior to providing services, and medical evacuation can be expensive. Travel insurance is available through AMAWATERWAYS for your cruise and is highly recommended.
Baggage
International air carriers have become stricter about the size and weight of baggage and carry-on luggage. Please contact your air carrier for specific information prior to departure, as size and weight limitations vary from airline to airline and even according to destination. This information is always available on air carrier websites. It is important to check both international and European domestic flight regulations as they may vary. Generally speaking for international flights, airlines allow one piece of checked baggage and one carry-on per person. Each checked bag should have dimensions not exceeding 62 inches (l x w x h) and weight not exceeding 50 lbs. (23 kg). Your carry-on should not exceed 22 x 14 x 9 inches and weigh no more than 17 lbs. (8 kg). International air carriers may impose fees for baggage, excess baggage and/or require you to remove articles and put them into another bag if weight or size limits are exceeded.

Important: AMAWATERWAYS is not responsible for additional fees imposed by air carriers. During the cruise and aboard motor coaches, storage space can be limited. Additionally, porters may refuse to carry very heavy suitcases for health and safety reasons. Therefore, for your own convenience and comfort, we recommend that you bring only one suitcase and one carry-on bag. We have luggage tags for you to fill out and attach to your suitcase and carry-on. It is also recommended to put a label with your name, address, and telephone number inside your suitcase and carry-on.

TRAVEL ESSENTIALS

What To Wear
It is recommended to travel light. The best advice is “if in doubt, leave it out.” Adopt a simple color coordination plan for your vacation to reduce the quantity of clothing required. Bring enough underwear and socks so that frequent laundry is not necessary. Wrinkle-resistant, easy-care cotton/polyester clothing is preferable for travel. You may wish to pack a few smart casual outfits and a more formal outfit (black tie is not necessary) to wear to the Captain’s Dinner or if you are planning an evening at the theater. We will be traveling through different climates and altitudes, so layering is advisable. You may want to bring a warm sweater for the evenings and a raincoat (with a removable liner in spring and fall). Warm clothing and a heavy coat should be worn during winter cruises. Bring comfortable walking shoes for the shore excursions and one pair of formal shoes.
What To Pack
Current security regulations require that all liquids, lotions, etc. that are stored in your carry-on luggage MUST be contained in a small, clear plastic bag and are restricted to a 3 oz. (88 ml) size. Any items exceeding this limit may risk being disposed of by customs authorities at the airport.

- Toothbrush, toothpaste, soap, shampoo, conditioner, deodorant, lotion, comb or hair brush, razor, feminine products and cosmetics
- Sunscreen
- Plenty of tissues and antibacterial wipes
- Travel alarm clock
- Medications for upset stomach, prescriptions, aspirin, antiseptic cream, cold medicine, vitamins, Band-Aids
- Pair of prescription glasses and sunglasses
- Flashlight, extra batteries, calculator
- Converters and adapters (due to different voltages)

NOTE: Europe uses 220v and 2-pin adapters. Make sure to inspect your cell phone and camera chargers, electric shavers and other appliances to determine specific converter and/or adapter requirements to ensure their safe operation on board the ship.

Pack a sufficient supply of any medications you are taking, copies of the prescriptions, and the telephone/fax numbers of your doctor. Some countries require that prescription drugs be carried in their original container, with the prescription label visible.

LEARN ABOUT YOUR DESTINATION
It may be helpful to do some minor research on the locations that you will be visiting. Familiarize yourself with the area, including streets, cities, the language spoken and transportation information. You might even learn a few useful words that will allow you to get to many places. Avoid exploring unfamiliar areas on your own and also avoid excess display of jewelry and/or money. Try to be prepared for anything. During your travels, you will encounter new customs and lifestyles. Appreciate and enjoy the differences as this process of discovery and understanding is one of the many benefits of traveling. Despite language barriers, a nice smile and a “thank you” are universal. Friendliness and tolerance towards others, including your fellow travelers and ship’s personnel, is essential for everyone’s enjoyment of the trip. All of us who travel abroad should be goodwill ambassadors.
HEALTH AND WELL-BEING

Physical Requirements
AMA WATERWAYS itineraries are varied and active vacations – if desired. While cruising days provide ample opportunity to relax on board, our included shore excursion program does require a moderate amount of walking. European streets, sites and attractions often require walking along uneven cobblestone and climbing stairways. In addition to our regular walking tours, passengers who prefer a more relaxed, gentle walking pace, we have allocated one guide to lead a “gentle walkers” group wherever possible. For guests who would like more time to explore on their own or see more during the tour, we have an “active walker” group in certain locations that provide a faster-paced tour to either see more landmarks or, to offer more free time by condensing the duration of the tour.

Facilities for Special Needs
Handicapped facilities on board are limited. River cruise vessels are not equipped with wheelchair ramps, and hallways and doors may not be wide enough to accommodate wheelchairs or scooters. AMA WATERWAYS ships are equipped with an elevator but it does not access all decks. Additionally, motor coaches and minibuses used for transfers and shore excursions may not be equipped with wheelchair ramps, or specialized access. Please advise AMA WATERWAYS of any special needs or other conditions at the time of booking.

Facilities and services for passengers with disabilities may vary by destination, and in some cases, are limited or non-existent. Cruise passengers requiring special assistance must be accompanied by a person who is responsible for and physically able
to provide such assistance. Transfers and shore excursions adhere to a predetermined timetable and participants in these activities should have no physical impairments that would affect the time schedules or interfere with the rights of other passengers on vacation. Without limitation, AMAWATERWAYS and its affiliates are not responsible for any denial of services by airline carriers, cruise vessels, hotels, lodges, coaches, local guides or operators or other independent suppliers.

Medical
Any condition requiring special attention must be reported to AMAWATERWAYS at the time of booking.

Special Diets
Please advise AMAWATERWAYS of any special dietary requests at the time of booking. We will make every effort to accommodate your request, but please note that local conditions and seasonality can affect our ability to comply.

SPENDING MONEY

ATMs
ATM machines are widely available throughout Europe and readily accessible during shore excursions. Please be sure to make a note of your personal pin number or security code for your card(s). Our ships do not have ATM machines on board. Prior to traveling, we recommend that you notify your bank of your travel plans so they can inform you of any applicable transaction fees and provide information on restrictions, etc.

Credit Cards And Travelers Checks
Major credit cards (Visa/MasterCard/Amex) are accepted in most locations. Before traveling, make sure that your credit cards are valid for at least 30 days after completion of your vacation, and activate them before you travel. While major credit cards are generally accepted by shops and hotels throughout the world, you may encounter stores or restaurants that may require a minimum charge for using them. Be sure to take more than one credit card as some outlets may not accept all cards. As with your ATM card, we recommend that you advise your credit card company that you will be traveling abroad, so that they can note on your account that you may be making foreign charges.

Travelers Checks in U.S. Dollars can be exchanged for local currency on board in limited monetary amounts. There will be a nominal fee, and daily conversion rates apply.
Settling Your Bill On Board

The day before your cruise ends you will be given an invoice for any onboard charges you may have made. Please check the invoice to make sure all items are accounted for before payment/closing of the account. All onboard charges will be in Euros. Payment is accepted in cash (Euros) or by credit card. Pre-paid credit cards are not accepted on board. Your bank/credit card company will convert this into your local currency at their own exchange rate. Some bank/credit cards may charge a separate fee as well. Please also note that on your bank/credit card statement your onboard charges will not state AmaWaterways Los Angeles, as your credit card will have been processed in Hamburg, Germany.

TRAVEL ARRANGEMENTS

Airport Security And Check-in

It is important that you arrive at least three hours before international flights, and no later than two hours before domestic flights. This will allow you time to check in your baggage and present your passport and ticket, get seat assignments and boarding passes and clear security procedures to the boarding area. Present airport security measures require all sharp objects to be stored inside the luggage you are checking in. You may be required to put your shoes through the X-ray checks, so be prepared to remove them.

Flights

Prepare yourself and make small adjustments to your time and eating habits.

• Wear loose-fitting clothing and comfortable shoes during the flight
• Avoid caffeine, alcohol and carbonated drinks; instead try to drink plenty of water to stay hydrated.
• Alleviate pressure in your ears by chewing gum, yawning, swallowing or gently blowing your nose.
• Remember to move up and down the aisle to stretch out your limbs and get blood circulating during long flights; you can also do a few isometric exercises while seated.
• If you arrive in Europe in the morning, try to sleep during your flight so you can stay up until the evening.
• Avoid wearing contact lenses during your flight because cabin air tends to dry them out.

Late Or Missed Flights
In the unfortunate event that you miss a flight completely, please immediately advise the airline representative that you are a cruise passenger, bound for a specific location, date and time to embark your cruise. Typically, the airlines will do everything in their power to re-book you that day or the next. Please refer to the phone numbers on your documents and advise the ship of any delays or changes with your schedule.

Lost Baggage
Sometimes baggage is delayed during air transport. Take a change of clothing in your hand luggage, or pack some of your clothing in your traveling companion’s bag in the unfortunate event that your baggage is delayed. Place a copy of the hotel and ship contacts inside each piece of luggage. If your luggage is lost, this will help the airline locate you while you are traveling. Should your baggage be delayed, please note that it is the responsibility of the airline to ensure that it is delivered to you. Claims for reimbursement for delayed luggage should be submitted directly to the airline. To assist in this process, a claim form should be filled out at the appropriate airline desk upon arrival. If you need assistance later in contacting the airline for information regarding your delayed luggage, please ask your Cruise Manager or local host.

EMBARKATION/DISEMBARKATION

Embark
Official embarkation time is 3 p.m. for all ships. This allows the staff to prepare your stateroom and have the ship ready for the next departure. If you arrive earlier, you may check your luggage on board, and then explore the embarkation port city.

Disembark
Official disembarkation time is 10 a.m. You may disembark earlier if the ship is moored in the location you are disembarking from, and you may disembark later providing you have vacated your stateroom and checked out before 10 a.m.

DURING THE CRUISE

Reception
The ship’s reception desk is open 24 hours a day. Should you need any assistance, please call from your stateroom by dialing 9, or pay them a visit.

Onboard Language
The official language on board is English. All staff, crew and local guides speak fluent English. All announcements and lectures will be presented in English.

Smoking
Smoking is not permitted anywhere inside the ship. Smoking is only permitted at the rear of the Sun Deck. For the safety and comfort of all passengers on board, your cooperation in observing the no-smoking policy is greatly appreciated.

Ship Schedule
The ship will sail promptly from each port in accordance with its cruising schedule. The ship is unable to delay departure for passengers who may not be on board. Unless you are on a ship’s excursion accompanied by the appointed guide, it is your responsibility to make your own way to rejoin the ship at a subsequent stop. Without limitation, AMAWATERWAYS is not liable for any costs incurred if you miss the ship’s departure for any reason.
Gratuities
Gratuities to your Cruise Manager and ship crew are not included in the vacation price. While the amount of these gratuities will depend upon your degree of satisfaction for services received, many of our clients have asked us for general tipping guidelines. For good service, we recommend 3 Euros per passenger, per day for the Cruise Manager and 12 Euros per passenger, per day for the crew, which will be divided up among the ship’s personnel. It is also customary to acknowledge a particularly good performance of a local guide by leaving a tip of 1-2 Euros per tour. Gratuities on most vessels, but not all, may be charged on credit card as well as cash.

STATEROOM INFORMATION

In-Room Entertainment
There is a television in each stateroom. You can view English-language programs, entertainment videos and a ship informational channel. A selection of complimentary Hollywood feature films and classic films is also available on your stateroom television. Please note that television reception is via satellite, therefore depending on location, reception may be temporarily restricted or unclear.

Internet
Every stateroom is equipped with a monitor and a keyboard, and offers complimentary Internet access through the ship’s unique Infotainment System. Wireless internet is also available throughout the ship. Remember to write down and bring your email account log-in information if you would like to send emails while on board. Please note that there may be times, depending on location, when Internet service is unavailable.

SHORE EXCURSIONS

Daily Program Newsletter & Detailed Itinerary
The ship’s daily newsletter features information about daily activities, shore excursions, tour departure times and more. We recommend that you always carry the newsletter with you when going ashore, as it contains the ship’s docking address and your Cruise Manager’s telephone number. Also, included with your final documents is a Detailed Itinerary, describing each included and optional sightseeing tour for each day of your cruise and any applicable land extensions.

Sightseeing
A sightseeing tour is included in each city or town you visit, along with free time to explore the city according to your own interests. The sightseeing tours can take place on foot, via motor coach, or a combination of the two. Each tour is led by a qualified, licensed English-speaking local guide or your Cruise Manager.

In addition to our Gentle and Active Walkers groups noted in our Health and Well-Being section, for some excursions, we have a “Late Starter” option for guests who wish to sleep in but do not want to miss key tour highlights. For those guests interested in exploring Europe from an exciting new perspective, we offer guided bicycle tours in select cities (capacity controlled). In the event of water level problems on certain stretches of the river, it may be necessary to operate part of the itinerary by motor coach or to alter the daily program as determined by the ship’s Captain.

Audio Headsets
During shore excursions, we provide a sophisticated audio headset system that allows guests to comfortably listen to their tour guide while taking photos or admiring some of Europe’s hidden gems.

Motorcoach Safety
Passengers must remain seated at all times while the coach is in motion to avoid serious injury. Passengers using the emergency washroom do so at their own risk. Hand luggage and other personal items should be safely stored in the overhead luggage racks or under your seat to keep the aisles clear. Heavy items, bottles, etc., should not be stored overhead. No passenger should remain on the motor coach during stops. Do not leave any valuable items on the coach. Please watch the stairs and overhead entrances when ascending from the motor coach, and check for traffic when exiting the coach. Please follow these safety precautions and take the time to note all emergency exits.
